# Yemek pişirmek; adeta bir terapi

## Cooking as therapy

Yemek pişirmek bir sanat, bir terapi adeta. İnsan psikolojisi üstünde de oldukça pozitif etkileri var.

Yemek pişirmek sevginin dışı vurumudur çoğu zaman. Hem kendinize hem de sevdiğinizlere karşı bir sevgi ifade biçimidir bu. Yemeği sevgiyle hazırlamanın içeriğe lezzet anlamında katkı sağladığı, bilimsel olarak kanıtlanmasa da hepimizin katıldığı bir gerçek.

Yemek pişirirken düşüncelerinizi toparlayıp aklınızdaki bir düzene sokabilirsiniz ya da tam tersi zihninizi boşaltıp, rahatlayabilirsiniz. Yemek pişirme sürecinde sahip olduğunuz kontrol, size bir denge verir.

Tüm duyularınızı aynı anda çalıştırır ve sizi motive eder. İçinizdeki olumlu duyguları açığa çıkarır. Ruhunuzu besler. Yemek pişirirken sağladığınız koordinasyon, farkındalığınızı artırır.

Birlikte yemek pişirmek en iyi iletişim biçimidir.

Cam, yemek yaparken kullanacağınız en sağlıklı malzemedir. Borcam, ısıya dayanıklılığı ve kolay temizlenebilme özelliğiyle bu sağlıklı ürün grubunun başında gelir. Tatlı, tuzlu, sulu ya da değil, hemen her yemeği Borcam ile pişirebilir ve servis edebilirsiniz. Sunum anlamında da büyük bir avantaj sağlar Borcam. Şıklığı sayesinde servis sırasında sunum tabağı olarak da kullanılabilir ve hatta sonrasında buzdolabında muhafaza etmek için kapaklı versiyonlarından faydalanabilirsiniz. Yeni Borcam Non-stick'in yapışmazlık özelliği ile yağlama ihtiyacı duymaksızın yemek pişirebilir ve bu özelliği sayesinde de kolayca temizliğini sağlayabilirsiniz.

*Cooking is almost an art, a therapy. Cooking also has positive effects on human psyche.*

*Cooking is often the expression of love. It's a way of expressing love for yourself and your loved ones. Even if it's not scientifically proven, we all agree on that the preparation of food with love contributes to the flavor.*

*When you are cooking, you can put your thoughts together and put them in order in your mind. Or you can empty your mind and relax. The control you have during the cooking process gives you a balance.*

*Cooking addresses all your senses at the same time and motivates you. It reveals positive feelings within you. It nourishes your soul. The coordination you provide while cooking increases your awareness.*

*Cooking together is the best form of communication.*

*Glass is the healthiest material to use when cooking. With its heat-resistant and easy-to-clean properties, Borcam is one of the leading brands in this product group. Sweet, salty, juicy or not, you can cook and serve almost any dish with Borcam. Borcam provides a great advantage in terms of presentation. Thanks to its elegance, it can be used as a serving platter during the service and you can also use the products with lids in the refrigerator. With the non-stick feature of the new Borcam Non-stick, you can cook without greasing and you can easily clean it.*

Dış bükey şekillendirilmiş taban sayesinde fazla yağ tepsinin kenarlarında bulunan çukurlarda toplanır

Due to the convex surface fat is collected in both sides cavities

↓ Dairesel alanda toplanan yağ aşırı kurumayı önler  
Some fat stays in the centerpiece to prevent the food from drying

Grill Borcam'ın ızgara olukları fırın ısısını yemeğinizin her yerine eşit dağıtır.

Oluklar arasından süzülen fazla yağ ve su dış bükey şekillendirilmiş taban sayesinde tepsinin kenarlarında bulunan çukurlarda toplanarak yemeklerinizin kızarmasını ve çıtır çıtır olmasını sağlar. Tabanın ortasında yer alan daireysel alan ise aşırı kurumayı önler.

Tüm bu küçük detaylar sayesinde kırmızı et, tavuk, balık ve sebzeleriniz en mükemmel şekilde pişerek sağlıklı, hafif bir o kadar da lezzetli olur. Grill Borcam'larla ızgara keyfinizi sağlıktan ödün vermeden doya doya çıkarın.

*Ribbed Grill Borcam has a self-draining baking tray with a convex surface and a peripheral channel for collecting fat or grease from the baked meat or food. The dimension of this centered piece is just enough to prevent the food from drying. The excess fat is collected in the cavities on both sides of the tray due to the convex surface. As a consequence the food is prevented on the baking surface from contacting the excess fat or grease.*

*Additionally the gutters provide an airflow on the bottom which causes a quick evaporation of the grease accumulated under the meat to achieve a crispy bottom.*

*The great advantages of using Grill Borcam instead of a conventional baking tray is: the food is less fatty and therefore healthier and tastier.*
